

# WELCONSE to Sonlight Dear Friend,

This past year, we celebrated 30 years of connecting families and helping kids love to learn. We also made many new friends as the Sonlight family grew in response to the Covid-19 pandemic. Our team found itself stretched in many ways as we sought to help those new to the idea of homeschooling make wise choices for their families. What a privilege to share the benefits of literature-based learning with so many.

**Connections** are even more important in the coming year as we continue to navigate uncertain times. Sonlight stands ready to help you connect with memorable characters and ideas through great literature; to connect with God through rich faith

discussions; and to build deep family connections as you learn and discover together.

Perhaps you were new to the homeschool journey this past year and found that it added a rich and satisfying dimension to your family experience. Or you may find yourself considering the home education option because of a disappointing school year this past year. Let Sonlight come alongside to help you discover how literature-based learning builds a love of learning that continues long after formal schooling is done.

#### Blessings, Sarita Holzmann

Co-founder & president of Sonlight Curriculum

We live in West Africa, and Sonlight is a favorite part of our days! We love the books and we love the discussions we have and we also love how easy it is to homeschool with Sonlight. When we wanted to take our end-of-year picture with our stack, Nicholas didn't want to pose because he was too busy reviewing a favorite book. Thank you, Sonlight, for making a fun homeschool possible, even in faraway places!" The G. family, Sonlighters from Lisbon, OH.

#### Sonlight is not your average homeschool education. Sonlight parents and students *love* their homeschool experience.

They happily celebrate #sonlightboxday when the materials arrive at the start of the school year, and joyfully choose their favorite books at the end of the school year.

We believe that you are the one best-suited to teach your children. As a Sonlight homeschool family, you'll grow closer by talking and wondering, laughing and learning together. As you and your children walk together on this journey, we'll give you the tools to prepare them for their future.

Sonlight is a complete, literature-based, Christian homeschool curriculum offering every subject for students from preschool through high school.

We do not attempt to replicate public education at home though. More than thirty years ago, we pioneered an entirely different approach to learning—literature-based learning. Sonlight's comprehensive curriculum uses real books to deliver an engaging and complete education, far richer than textbooks and rote memorization. Through the years, our product has grown and matured, but its core remains the same: a collection of the best-of-the-best educational materials. conveniently assembled together to help you teach your children.

#### This fully-planned, flexible curriculum comes with all the materials you need, including thorough lesson plans and notes, so that you can enjoy successful homeschooling.

For more than 30 years, we've been helping children love to learn and helping parents and children connect—to each other and to God. Discover Sonlight's foundation and how we connect families through our curriculum in the next few pages. 💸

#### THE ORIGINAL LITERATURE-BASED CURRICULUM

When it comes to literature-based curriculum, Sonlight wrote the book. Discover a delightful way to learn, centered on love for the Lord, love of great stories, and innate curiosity.

#### Books are at the center of Sonlight

A Sonlight education is built ground great stories living books. We utilize good literature (like historical fiction, biographies, award-winning titles) to teach subjects such as history, Bible, and science, and offer academically excellent products for subjects such as math, handwriting, language arts and electives. These materials are organized and scheduled for you in our customerrenowned Instructor's Guides.

#### What is literature-based homeschooling?

Literature-based homeschooling is a highly academic approach that uses outstanding books and delightful stories as the centerpiece for learning. Real books make learning come alive and these stories give context to information, create an emotional connection with students. and help readers retain the information.

Reading is the foundation for comprehension and critical thinking in every arena, from history and language arts to math and science. Because humans are wired for story, we believe the most effective way to learn is by reading stories.

Sonlight's literature-rich programs build a love of learning that continues even when school—both school days and formal schooling—is done.

Literature-based learning is also surprisingly efficient. You read the best literature available to your children. They absorb the information. You talk about what you read and then move on to the next book. No stressful studying for tests. No boring lectures. Just enjoyable reading and interaction

#### Why choose a literature-based education?

Why use great literature-the best books ever written-as the foundation for learning? A single book can distill the wisdom of an entire lifetime in a few pages, offer insights and perspectives unlike our own, and open doors to delight and discovery. The result of a literature-based education? Individuals who are highly inquisitive and invested in learning for life.

- √ Literature makes learning information enjoyable.
- ✓ Literature conveys information in a format that is easy to remember.
- √ Literature encourages you to interact with your children.

#### How do Sonlight's Christ-centered, literaturebased programs work?

- 1. Start with a History / Bible / Literature program. Sonlight's History / Bible / Literature programs are the basis for your Sonlight experience. Each program includes a year's worth of history and geography, Bible and literature (called Readers and Read-Alouds).
- 2. Let your Instructor's Guide show you what to do.

Your curriculum is far more than a pile of books. It wouldn't be Sonlight without our award-winning Instructor's Guide. Your easy-to-use Instructor's Guide weaves your books and materials into a cohesive, fullyear curriculum.

With flexible weekly and daily schedules, discussion questions, teaching tips, hands-on activities and experiments, and insightful notes to prompt deeper discussion, simply open up your Instructor's Guide and teach with confidence each day. 💸

#### WHAT'S SONLIGHT'S SECRET?

Children respond more positively to great literature than to textbooks. Because quality literature is not age-specific you can teach multiple children with one program!

## OUR TOP TEN GOALS... DO THEY MATCH YOURS?

Whether you are just getting started or have a few years under your belt, you might find it refreshing to consider what your homeschooling goals are. What metric will you use to determine if you're having a successful year? Are academics the most important? Or character training? Or raising your children to be independent adults?

As a partner in your family's education, these are the goals that we hold. If these sound good to you, Sonlight will be a great fit for your family.

#### Teach your children to seek God's Kingdom above everything else.

Jesus instructed his followers to "Seek first His [God's] kingdom and His righteousness" (Matthew 6:33).

By design, Sonlight's curriculum seeks to spark meaningful conversations between you and your children. These moments can help your children learn to put God's kingdom purposes first.

#### Raise children with God's heart for the world.

God's plans are for all nations, all people groups. As Revelation 5:9 says, there will be some from "every tribe, language, people, and nation" worshiping before God's throne at the last day.

Since God's heart is for the world, you'll teach about the world right from the start. Starting with a true story set in Thailand in the Preschool program, and continuing each year, your children will meet (and pray for) people from many cultures.

With this global perspective, Sonlight offers the opportunity for your children to understand their role in what God is doing in the world.

#### Inspire your children to honor Christ boldly.

Our desire is that Sonlight students understand that they are part of God's plan, which is far bigger than they are. This plan has been carried forward through the centuries by "a great cloud" of faithful people who fulfilled their callings, often with great sacrifice (see Hebrews 12:1).

Your children will find true heroes—people whose lives they want to emulate. As you read compelling biographies, you'll help your children see these heroes as real, imperfect people who continually said yes to God. And you'll see how God has continued his work in the world through Christ-followers.

Your children will sense the excitement and challenge of following Jesus in big and little things—not only at home and at church, but also in their work and culture.

### Prepare your children to be winsome ambassadors for Christ.

Paul calls us "ambassadors for Christ" (2 Corinthians 5:20). Ambassadors represent their home country in foreign places, communicating their home country's message to their hosts. They are the bridge between their home and their hosts.

What a wonderful calling! In order to train your children to become effective ambassadors, you help your children know both Christ and the Scriptures, as well as the people and culture around them.

Effective ambassadors are familiar with the truth and know their audience. They know the message they have been sent to share, and how to share it, taking into account what their hosts think, believe, and value.

#### Raise "culturally literate" students.

We all need to know a certain basic set of background information if we want to get along in a culture, let alone influence it. We must be aware of the key historical events, significant people, movements, groups and ideas that have shaped our culture.

With Sonlight, you'll read widely from carefully selected books that help your children become culturally literate adults. Your children will have a foundational base of knowledge.

More importantly, these books help prepare your children to respond to cultural influences in a godly way. Cultural literacy helps prepare students to become worldchangers—people who make a difference for good.

#### Teach your students how to listen to others with confidence and with interest in other viewpoints.

"Everyone should be quick to listen, slow to speak" (James 1:19).

To communicate effectively for Christ, we might do well to listen. Sonlight teaches this skill in two ways.

First, your children will listen while you read to them. Studies show that children develop better listening skills when their parents regularly read to them at length. Sonlight Read-Alouds help you love reading together daily, and so your children will learn to listen.

Second, Sonlight programs often present multiple sides of an argument. Your children listen to two perspectives on various issues and work to find quality solutions. Sonlight equips you to walk alongside your children as they learn the tools, techniques, knowledge, and skills of godly intellectual engagement.

Your students will learn that most issues have more than one perspective, and that, in the face of other perspectives, they need not mock nor cower. They can find answers to questions that challenge their point of view. There is no need to fear. They can be confident in the face of differing viewpoints.

#### Inspire students to be true scholars.

With Sonlight, your students go beyond simply memorizing information. They learn how to research, compare views, think critically, and explain their perspective articulately.

We believe true scholarship is an important step in preparing students to do whatever God calls them to do. Those who have "done their homework" are in far better positions than those who haven't learned to communicate effectively with people who hold different perspectives.

#### Foster a love of learning.

What good does it do to fill children's minds with information if they never develop a sincere desire to learn and grow in wisdom? As Solomon said: "Blessed is the man who finds wisdom, the man who gains understanding, for she [wisdom] is more profitable than silver and yields better returns than gold. She is more precious than rubies; nothing you desire can compare with her" (Proverbs 3:13-15).

Once your children want to learn, you have equipped them to keep learning throughout life. This allows them to press toward the goals God wants them to pursue.

#### **Prepare students for** thoughtful action on significant issues.

The Bible and other quality literature develop empathy, teach life lessons gracefully, and encourage students to search the Scriptures to find out how Jesus would respond in certain circumstances.

As your students read and think about serious social, personal, and ethical issues, they prepare themselves for times when they may face similar dilemmas. Can you imagine a more enjoyable way to gain wisdom and knowledge than to read great books?

#### 10 Launch mature adults.

The end result of education is not solely to create young people with brilliant minds. A brilliant mind, after all, can be turned to good or ill purposes.

Rather, we want your children to be mature adults, who make prudent decisions instead of self-destructive ones, who have purpose and direction instead of aimlessness, who are eager to serve the Lord and the body of Christ rather than living for themselves.

Sonlight students worldwide are discovering their gifts and using them to further God's kingdom in different ways.

One Sonlighter was recently the first in her family to graduate college. Another just started at Stanford. Another Sonlight grad is headed to the Navy to study nuclear engineering. Another student plans to be a medical missionary, while another is already working to fight human trafficking.

As you look at your goals for your homeschool, may you be inspired by how meaningful this calling is; may you be encouraged by how doable it is, through God's grace; may you be strengthened in the year to come as you raise and educate vour children. 💸

▲ After a horrible experience in public schools, we felt they left us no choice but to homeschool. After research and recommendations to make sure we got what was right for our family, we went with Sonlight. I love the fact that our child gets God's messages and every day life mixed together and we can see similarities and differences. This was the first of many box days to come." Lindsay P of Columbia, MO.

# Missionary homeschool life, made easier with Sonlight! We're thankful that we get to do life together, do learning together, do missions together, while eating mangoes and climbing trees. Our family is grateful for the gift of being able to serve Mangyan people in their villages, do checkups, feed the hungry, and all while being together. The world is our classroom." ### WHY WE GIVE HOW WE GIVE

Sonlight is more than a curriculum company. With every purchase, you don't just get great books and stellar curriculum. Every order you make fuels efforts to spread the good news of Jesus worldwide.

One of the key focuses of Sonlight is missions. We love this part of what we do. Not only do we seek to raise up generations of young people who are passionate to see lives transformed, but for every dollar you spend, the Kingdom of God advances as we give towards missions. You are part of the story that God is writing to reach the world—changing people's lives because of the gospel.

Here's how your purchase contributes to our commitment to missions giving.

**READ.** Because of your purchase, the life of an illiterate Dalit woman in India is transformed. She is able to attend a literacy class where she gains freedom for herself and her family from those who would cheat her. She learns basic skills to improve her health and earn additional income.

**TRANSLATE.** As you read to your children, your purchase has allowed a man to hear the Bible in his heart language for the first time. With the words of Scripture translated into a language that now has the words of life, his life is changed forever.

**BROADCAST.** As your children hear words that give life, your purchase pours out living water through radio programs into places that are difficult to reach. Those living in a country hostile to Christianity hear truth through the airwaves. While they maybe aren't able to meet someone in person, these broadcasts bring truth their hearts long to know.

**SEND.** When you look at your children playing, laughing, and learning, remember that your purchase helped children across the world learn, too. Children's Bible Clubs introduce children to Jesus, and see lives and families transformed in the slums of India.

**GO.** As you read missionary biographies, know that, through your purchase, a believer is going to a place where the good news has not been proclaimed before. How beautiful to have feet on the ground with the gospel in a place waiting to hear the name of Jesus.

When you purchase from Sonlight, you are part of the story that God is writing to reach the world. Learn more at sonlight.com/missions

#### A GUIDE TO SONLIGHT'S VOCABULARY

#### SONLIGHT-SPECIFIC DEFINITIONS:

#### **HISTORY / BIBLE / LITERATURE (HBL)**

The foundation of a complete Sonlight education. Each HBL program includes a year's worth of history, geography, Bible and all required books, all connected with an award-winning Instructor's Guide. HBL programs come with Sonlight's unmatched SonlightCares™ benefits (p.130). See pp. 36-69 for more detailed descriptions of each HBL program.

Start with an HBL and add additional subjects. Choose a 4- or 5-Day per week program.

#### **INCLUDES:**

4- or 5-Day Instructor's Guide	History/Geography
Bible	Read-Alouds
Readers	

#### **ALL-SUBJECTS PACKAGE (ASP)**

An All-Subjects Package provides all HBL subjects—history, geography, Bible, Read-Alouds, and Readers, with the Instructor's Guide—PLUS handwriting (early grades), spelling (middle grades), math, and science. It also includes all books and Sonlight's unmatched SonlightCares™ benefits. An ASP offers everything you need to teach one child for one school year.

Choose a 4- or 5-Day per week program.

#### **INCLUDES:**

4- or 5-Day Instructor's Guide	History/Geography
Bible	Read-Alouds
Readers	Language Arts
Science	Math
Handwriting (Levels K-3 only)	Spelling (Levels 1-6 only)

#### 4-DAY/5-DAY:

All Sonlight packages are fully planned for 36 weeks—a full school year. 4-Day (144-day) programs are designed for families in a co-op, or any family that wants a more relaxed (but still thorough) education. The 5-Day (180-day) programs provides a complete, daily schedule, with more books. Want the 4-Day schedule but don't want to miss out on any excellent books? Order the 4-Day program and add on the 5-Day books.

#### **ADVISORS:**

Sonlight Advisors offer you free, personalized homeschool help. Contact an Advisor with questions about what materials you should buy, how to use what you already have, and how to solve any homeschool dilemmas you face. Available via phone, email, or chat. Go to sonlight.com/advisors to get started.

#### **READ-ALOUDS (RA):**

Books you read aloud to your children.

#### **INSTRUCTOR'S GUIDES (IGS):**

Instructor's Guides (IGs) offer you stress-free teaching. Our award-winning guides turn stacks of books into a connected course of study, with daily schedules, discussion questions, notes, teaching tips, activities, and more. Turn to pp. 22-29 to find out more and visit sonlight.com/samples to request a FREE, 3-week sample of any IG.

#### **REQUIRED RESOURCES:**

Essential for first-time Sonlighters. Required Resources include a 3" binder with tabs to keep your Instructor's Guides organized and in one place, The Timeline Book, and Markable Map & Markers. Necessary products for your school year. See what items are required resources at sonlight.com/required-resources

#### **CONSUMABLE:**

Products you use up. You may want one for each student. One is included in each Sonlight package.

#### **READERS (R):**

Books your children read on their own, either silently or aloud to you. For History / Bible / Literature programs before D, children read grade-specific Readers that help them develop a true love for reading. From Sonlight D through J, the Readers integrate closely with the HBL material and enhance your children's study of history, geography and culture. (In high school, the literature courses are separate from the history courses.)

#### ESTIMATED DAILY TIME:

The approximate length of a Sonlight school day for one student. Students work independently at times, so the student estimates differ from the parent estimates.

#### **SONLIGHTCARES™:**

The collection of benefits available to Sonlight purchasers. See p. 130 for the list of benefits.

# STOP PLANNING LESSONS & START enjoying YOUR HOMESCHOOL!

#### Sonlight Instructor's Guides make your

homeschool days easier. At the core of every Sonlight program is the Instructor's Guide (IG). Available for History / Bible / Literature, Language Arts, and Science, each IG includes complete, ready-to-use lesson plans and notes for the entire year. Just open-and-go, knowing exactly what to teach each day ... without any prep work!

Each IG—History / Bible / Literature, Language Arts, or Science—offers some of the same benefits.

#### IGs eliminate the stress of everyday homeschool planning

Each Sonlight Instructor's Guide is the result of hundreds of hours of research and experience. Don't spend your time planning homeschool lessons. With Sonlight's Instructor's Guides, that's been done for you.

#### • IGs turn your books into curriculum

The IG weaves your books and materials together into a cohesive full-year curriculum. It is your roadmap for the entire school year... with virtually all of the planning done for you. Simply do the given assignments and use the suggested Discussion Questions to help you track your students' comprehension.

#### Daily schedules

Each IG includes 36-week lesson plans that integrate your children's various subjects into an exciting, unified learning experience. Simply follow the daily schedule for a well-organized, balanced, complete year of learning. All your books and activities are scheduled for the year.

#### Your choice of 4-Day or 5-Day per week programs

For most programs, you have a choice between two schedule options. Choose a full 5-Day schedule, or pick the 4-Day option (where available) to reserve time for co-op or extracurricular activities.

#### • Experts develop each IG

You are free to focus on your unique role: teaching, guiding and enjoying your children. This is the role that no one else can fill.

#### IGs show you the way every day, all year long

Every IG offers a customizable homeschool schedule, complete lesson plans, pertinent activities, and thoughtful questions to aid your students' comprehension. It includes handy teaching tips and pointers so you can homeschool with confidence all year long.

#### INSTRUCTOR'S GUIDES

#### HISTORY / BIBLE / LITERATURE

#### Unique to the History / Bible / Literature (HBL) Instructor's Guide:

#### 1 BIBLE

Sonlight's curriculum reflects a Christian worldview and you'll find references to Scripture and Biblical ideas throughout your studies. The goal is to help you and your children read, memorize and talk about Scripture so that God's word becomes woven into the fabric of your lives.

#### **DISCUSSION QUESTIONS**

Each IG includes various types of discussion questions—including review, comprehension, and open-ended questions—with answers. Focus on the key points, maximize your time, and assess how well your children understand what they're learning.

#### **3** NOTES

Extensive teaching notes help you instruct your students with excellence, and ensure that they grasp key concepts. Notes provide counterbalancing arguments, clarification, further explanations, and commentary.

The IG notes also offer warnings about specific books or difficult content, so you can discuss important issues—such as racism and poverty with thoughtfulness.

#### **TEACHING TIPS**

See the rationale and educational philosophy behind Sonlight's methods and activities. Each IG includes detailed teaching tips, explains assignments, provides extra information about important topics and provides support to discuss difficult content. With Sonlight's IG's you'll get the most from the materials so you can teach with confidence!

Put your learning in chronological and geographical context. Timeline activities tell you when to add people, events, and dates to your Timeline Book. Map activities help you plot the places you visit in your reading. Your kids will plot points on their Markable Map and you have all the answers in the included map key.

#### **HANDS-ON ACTIVITIES**

In the younger years, you'll find optional handson activities designed to deepen your students' understanding of history and offer concrete evidence of learning.

#### **VOCABULARY AND CULTURAL LITERACY NOTES**

Find clear definitions for important vocabulary that appears in your reading. Enjoy useful Cultural Literacy notes that add depth to your reading and explain things students probably don't know (e.g., what a hoop skirt looks like).

#### **8** AN EASY RECORD-KEEPING SYSTEM

With space to record completion dates, your student's initials, extra notes and even extra subjects—all your records will be in one place for reporting.

#### 9 FLEXIBLE FORMAT

Because many families end up ahead or behind in a subject—at least occasionally—the IGs are structured for maximum flexibility. The IG is a guide, not a taskmaster. As you become comfortable teaching your children, you can skip or alter assignments to fit your family's unique needs. 🗱

#### **INSTRUCTOR'S GUIDES**

#### **LANGUAGE ARTS**

Teach writing naturally and with confidence using Sonlight's unique Language Arts Instructor's Guides. LA Guides also include:

#### **1** TEACHING SCRIPTS (IN THE EARLY GRADES)

Read the teaching scripts in the IG when you introduce new ideas, concepts, and assignments. Great for parents just starting to homeschool or to provide extra confidence when teaching!

#### **OVERVIEW SUMMARIES**

Weekly overviews summarize the concepts, skills and assignments for each week.

#### **COPYWORK/DICTATION ASSIGNMENTS**

With weekly copywork or dictation assignments, children model master communicators to learn the basics of writing. Assignments are based on your children's ages and ability levels, and most passages come from their Readers.

#### **SPELLING/PHONICS**

Phonics instruction is included in the LA Guides for levels K-4. Spelling instruction is included in the LA Guides for levels 1-4. In language arts levels D-F, choose one of our stand-alone spelling programs (p. 79).

#### **GRAMMAR AND WRITING MECHANICS**

Receive clear grammar instruction about specific concepts from the week's copywork or dictation passage, then complete a few exercises to practice and reinforce the concepts. Answers included. Your children will learn to communicate effectively.

#### **6** EVALUATIVE RUBRICS

Easily determine how to evaluate your children's work. Are they on track? What areas could use additional practice? What are the expectations in this assignment?

#### **7** EFFECTIVE CREATIVE WRITING INSTRUCTION

Step-by-step creative writing instruction encourages exploration and sets your children free to develop their creative side. They become superb written communicators, too.

Your IG includes assignments in a wide variety of styles and genres, including imaginative, persuasive, expository, narrative, journaling, etc. Each assignment includes instruction and a sample of what your student might produce.

The writing assignments follow a consistent pattern each week: copywork or dictation on Days 1 and 5; mechanics instruction and practice on Day 2; preplanning for writing on Day 3; writing assignment on Day 4.

#### 8 ACTIVITY SHEETS AND ANSWERS

Activity sheets reinforce your teaching and provide assignments that make your children eager to learn how to write well. A variety of activity options coordinate with your students' language arts studies and draw on a range of skills and interests. Weekly notes provide answers to grammar questions and suggested responses for creative writing assignments.

#### HANDWRITING/VOCABULARY

All levels include schedules for optional workbooks. These workbooks offer your children additional practice in areas where they may struggle, such as phonics, handwriting, grammar, and vocabulary. See pp. 78-82 for these supplemental materials.

#### **INSTRUCTOR'S GUIDES**

#### **SCIENCE**

#### Special features of Sonlight's Science Instructor's Guides:

#### **COMPLETE, READY-TO-USE LESSON PLANS**

All your science books and experiments are fully scheduled for the entire year. The IG provides the framework for what books to read and when, what experiments to do and what videos to watch. No need to create your own lesson plans!

#### **DETAILED TEACHING NOTES**

Notes explain each assignment and activity, point out fun facts about your reading, include question prompts, explanations, hands-on activities (beyond the experiments), and additional notes to enhance the reading and reinforce what your students are learning.

#### **ORGANIZATIONAL TOOLS TO HELP YOU PLAN AHEAD**

See at a glance the supplies you need for experiments this week and the following week. Know what supplies you'll find in the Sonlight Science Kits, and which household items you'll want to have ready.

#### **WEEKLY ASSIGNMENTS AND ENGAGING ACTIVITIES**

Simple, engaging experiments coordinate with your weekly reading. NEW: In levels K-C, these weekly experiments tie directly to that week's reading material for an even more linear progression from reading to doing. Experiments provide hands-on learning and reinforce and apply the concepts studied in the days previous so you can see your child's developing mastery of particular science concepts.

Most of the experiments can be done with common household items, but to minimize

prep time, we've created a Science Supplies Kit that includes many of the supplies you need to conduct each experiment. No planning necessary and minimal prep time!

Your children will relish the discoveries they make throughout the year. And you'll love that they are actively exploring STEM (Science, Technology, Engineering, Math) concepts, and making their learning stick.

#### Instructor's Guides K-J also include:

#### **INTERACTIVE ACTIVITY SHEETS**

Your Activity Sheets—with hundreds of activities, illustrations, charts, and pictures—help your children remember what they've learned. A variety of activity options coordinate with your students' science studies and draw on a range of skills and interests.

Activities progress with your children's abilities: from cutouts, matching, circle-the-answer, and dictation, to fill-in puzzles and sequencing analysis.

#### **COMPLETE ANSWER KEYS**

Separate Answer Keys mirror your Student Activity sheets for easy grading. No need to test-you have ongoing, reliable insight into your children's comprehension. 💸

# READY TO experience A SONLIGHT EDUCATION?

Choose your Sonlight curriculum in 3 easy steps. Sonlight offers literature-based (Couch Subjects™) & skill-based (Table Subjects™), all of which can be purchased in discounted packages or as separate subjects. Use the chart on the next page and select a program according to your children's age and interests. Then simply follow the steps below to add all of the subjects you need.

#### 1 COUCH SUBJECTS™

Couch subjects are literature-based and developed for a range of ages that enable flexibility to teach various subjects and combine multiple students into one program. These subjects teach students content-knowledge.

#### HISTORY / BIBLE / LITERATURE (HBL)

Sonlight's flagship product includes Bible, history, geography, and all required books, all connected with the award-winning Instructor's Guides. Use the chart on the next page and select a program according to your child's age and interests. View HBL descriptions on pp. 36-69.

#### SCIENCE

Programs available from kindergarten to college-level lab sciences. (Preschool and PreK programs include science—it's not a separate purchase.) Use the chart on the next page and select a program according to your child's age and interests. View Science program descriptions on pp. 84-89

#### **2**) TABLE SUBJECTS™

Table subjects are developed to meet each student's individual ability. We offer placement tests to ensure students are properly placed.

#### LANGUAGE ARTS

Sonlight Language Arts programs coordinate with HBL programs, and will walk you through how to teach your children all the vital skills they need to be good communicators. From phonics, letter formation and reading in the early grades, to writing instruction, grammar, spelling and all of the other skills that students need to communicate in adulthood. View Language Arts program descriptions on pp. 74-80.

#### HANDWRITING

Handwriting Without Tears is included in our All-Subjects Packages for levels K-3. You can customize the level or substitute with A Reason for Handwriting or Getty-Dubay. View all handwriting options on p. 82.

#### READERS

Readers are included in every HBL program. Six Reader levels are available for HBL programs K through C, so you can customize according to your child's needs. Starting with HBL D, all subjects are linked together, so there is no need to choose Readers. View Reader options on pp 70-72.

#### ■ MATH

Choose from our large selection of math programs including Math-U-See, Horizons, Saxon, RightStart Math, and more. View all available math programs on pp. 90-97.

#### SPELLING

Spelling is included in Sonlight Language Arts programs levels 1-6. Spelling You See is included in our All-Subjects Packages for levels D-F. Customize for each student based on ability. Visit p. 79.

#### 3) OPTIONAL SUBJECTS

Sonlight offers all subjects and all grades. From hands-on history projects, to lap books, to a wide range of electives — we offer a number of optional resources and supplements to round out your school year choices. Visit pp. 99-101

# TEACHING MULTIPLE STUDENTS?

#### TEACHING MULTIPLE CHILDREN WITH SONLIGHT IS EASY.

Unlike a traditional textbook approach, you don't have to order a separate Sonlight program for each child. Combine students within a 3-year age range into one History / Bible / Literature program and one science program (the "Couch Subjects™"). Then, simply add on skill-specific subjects for each child, according to ability: language arts, math, spelling, handwriting (the "Table Subjects™").

When you combine students, you

- save time because you're not trying to use multiple programs;
- **save money** because you're using the same materials with more than one student:
- **build family relationships** because your children learn together;
- avoid much of the frustration that comes from being pulled in multiple directions.

There is a recommended age range for combining a curriculum level. As your children get older, the readings become longer and more challenging conceptually, and they deal with more difficult topics. In general, one program will work well if your children are within about three years of one another.

Group students within 3 years of each other and teach as few History / Bible / Literature and Science programs as possible.

If you have children with a wide spread of ages, you might be able to choose complementary levels.

For example, Sonlight B goes well with G because both study the first year of World History. Sonlight D and E are excellent companions to Sonlight 100. You might schedule these programs in order to get some overlap of topics and concepts.

See the full Sonlight Scope and Sequence on pp. 128-129.

Find out each child's current ability level using complimentary placement tests, available online (sonlight.com/placement-tests).

Want to know more? Go to sonlight.com/multiple for more information (including a video!

#### NOTE ON LANGUAGE ARTS:

For students who are learning to read and write—usually those using Sonlight levels K-C, or for younger students listening in on an older siblings' program—choose the Language Arts program for each child first, then match the Reader program, regardless of reading ability. In these lower levels, match your Readers to your students' Language Arts ability. Starting in Sonlight D, students transition from learning to read to reading to learn, and the Readers and Language Arts tie in with the rest of the program—no need to choose.

Whatever your homeschool needs, Sonlight has you covered. From our pre-assembled All-Subjects Packages, to our centerpiece History / Bible / Literature options, to individual items, you'll find what you need at Sonlight.

## HOW TO CHOOSE YOUR CURRICULUM

Throughout this catalog you will see packages with our best recommendations that include both Couch and Table Subjects™. You can buy any individual items you like from Sonlight but for the best experience, service, and price, choose from the following preselected packages and customize as needed.

#### OPTION 1: History / Bible / Literature Program

We recommend starting with one of our History / Bible / Literature (HBL) programs. The HBL is Sonlight's flagship product, and includes Bible, history, geography, and all required books, all connected with the award-winning Instructor's Guides.

Each HBL is scheduled for one school year, can be used with more than one student, and can easily be adjusted to the pace you want. Discounted at 15% off retail price, an HBL offers significant savings and includes Sonlight's unmatched SonlightCares™ benefits. Available from preschool through high school.

Start with the HBL program that interests you most and add additional subjects (language arts, math, science, and more) to complete your year.

#### **OPTION 2:** All-Subjects Package

Get everything you need in one convenient package! Sonlight All-Subjects Packages contain everything you need to teach all subjects for one student for one year. An All-Subjects Package (ASP) includes an HBL with history, geography, Bible, Read-Alouds, Readers, with the Instructor's Guide—PLUS handwriting (early grades), spelling (middle grades), language arts, math, and science. You get 36 weeks of instruction fully planned, including all required books and Sonlight's unmatched SonlightCares™ benefits.

All-Subjects Packages offer the convenience of an all-in-one boxed curriculum but provide the flexibility

of customization for your specific needs or multiple children. And you get all that for a 20% discount!

Depending on your children's ages and skill levels, you may be able to buy one ASP and then add other grade-specific materials to accommodate multiple children. A Sonlight Homeschool Advisor can walk you through the process. Visit sonlight.com/advisors for details.

#### 3 OPTION 3: Create a Customized Package

Follow the steps in the SmoothCourse™ Curriculum Builder to create your own complete and personalized curriculum package. Get exactly what you need—a customized Sonlight package that matches your children's skills across all subjects.

# (HBL) PROGRAMS

The literature-based History / Bible / Literature (HBL) programs provide the center for a complete Sonlight education and weave together a year's worth of history, geography, Bible, and literature. Each HBL program encourages students to learn from multiple perspectives and engage in thought-provoking discussion. You'll use a variety of academic resources, including fictional and nonfictional literature, biographies, and illustrated books to deliver an engaging and complete education.

#### What's Included in an HBL?

- Instructor's Guide
- Bible reading & memorization
- History studies
- Great literature for parents to read aloud to their children and for students to read to themselves
- Geography

#### Instructor's Guides (IGs)

Sonlight IGs contain your complete lesson plans, teaching resources, and notes for a year. See pp. 22-29 for more details.

#### **Bible**

All of the Sonlight programs come from a Christian perspective. Throughout your studies, the Instructor's Guide includes Scripture references and questions that seek to relate what you're reading to your faith.

Sonlight also includes Bible as a separate subject.

Each Sonlight program schedules a Bible passage to read every day. By the time they graduate, your children will have read through most of the Bible more than once.

The schedule also suggests a weekly memory verse. These are set to music in Sonlight's K through G programs, in albums that seek to match the general

feel of the corresponding program. So in Sonlight F, a program that examines world cultures, the album incorporates ethnic instruments and rhythms.

Besides Bible reading and Scripture memory, many programs also include age-appropriate additional books, such as Bible study guides, books on Christian practices like prayer, and books of apologetics. You and your children will read, talk about, and memorize Scripture so that God's Word becomes integral in your lives.

To help your children share God's heart for the world, many years include prayer guides to help you pray for unreached people groups around the world. Let your children begin now to change the world for Christ!

Sonlight programs also include at least one missionary biography. God is at work around the world, bringing transformation. How wonderful to witness that work, and to see how He uses ordinary people to accomplish extraordinary things.

#### **History**

#### **Big Picture**

Sonlight's programs go through three cycles of history, nicely balanced between American and World History. Each time through, your children will gain a deeper understanding of what has happened and what God is doing. Since quality literature reaches children of various ages, you can use one HBL program with multiple children. (See p. 32 to learn about using one Sonlight program to teach more than one child.)

Sonlight also includes three years dedicated to important—but unusual!—topics.

- Sonlight level F (p. 60) focuses on the Eastern Hemisphere. The majority of the world lives here. And, even more importantly from the perspective of God's Kingdom, this is the area in which the largest number of cultural groups live without a viable church movement ("unreached peoples").
- Sonlight Level J (p. 68) focuses on the History of Science. Learn the stories of creative thinkers and surprising discoveries over the last several thousand years. Even if your children are not highly Science, Technology, Engineering, Math (STEM)-oriented, this is a fascinating course. (And for the STEM-oriented students? A fantastic year!)
- Sonlight 200 (p. 104) focuses on the History of the Christian Church.

#### **History Topics and Progression** Preschool - Fiction, Fairy Tales, & Fun Foundation for learning Pre-K - Exploring God's World K - Exploring American History A - Intro to the World: Cultures First B - Intro to World History, Year 1 sweep through C - Intro to World History, Year 2 history D - Intro to American History, Year 1 E - Intro to American History, Year 2 F - Eastern Hemisphere G - World History, Year 1 Second sweep H - World History, Year 2 through history J - History of Science 100 - American History Third 200 - History of the Christian Church sweep 300 - 20th Century World History through history 400 - American Gov/Economics 500 - World History & Worldviews Advanced learning College Prep - Psychology, British options Lit, Apologetics, & More Graduation!

#### Daily Practice

A fascinating, story-based history book or series serves as the "spine" for each HBL program. You gradually read through this book, mostly moving chronologically through history.

If the spine is mostly text, you'll also read an illustrated book so that your students get both a narrative and a visual history. For example, Hillyer's A Child's History of the World is a highly readable, engaging history book, but it lacks illustrations. Several Usborne books, filled with detailed illustrations, show children what Hillyer describes.

On top of the foundations of information and illustration, Sonlight's HBL programs add additional books, mostly biographies and historical fiction.

#### **Geography**

To learn Geography, you'll locate the places you read about on your large Markable Map. The level K-J guides also include small laminated answer key maps with locations you learn about indicated. No atlas needed!

And the Sonlight Timeline Book has blank pages with dates from 5000 B.C. to the present. For Sonlight K through J, each History package includes pre-gummed timeline figures, with dates, to place in the Timeline Book. (In the programs for older students, Sonlight 100 to 500, the IGs include names, dates, and events to write in, without accompanying illustrated stickers.)

A filled Timeline Book is an amazing resource: not only a record of people and topics your children have studied, but a cumulative reference to understand history as a whole. As one small example: if you had placed the stickers from Sonlight levels K-D, your page from 1450 to 1475 would show Leonardo da Vinci, Christopher Columbus, Michelangelo, and Aztec emperor Montezuma II. Also some major events: Muslims conquer Constantinople, Ponce de Leon seeks the Fountain of Youth, Balboa discovers the Pacific Ocean, and Vasco da Gama sails to India.

You get all of that in a Sonlight History program: a foundational book or two, additional biographies and historical

fiction, geography studies, and a timeline to see the big picture.

#### Literature

You'll read books in a wide range of literary styles and genres. You may surprise yourself and say, as many have before: "I've never read a book like that before! I'm astonished at how much I enjoyed it!" When you choose individual books for your children, you'll likely reject one if it seems hard to read or a genre or subject that doesn't much interest you. »

> I am so thankful to Sonlight for strengthening the bond between siblings. They have laughed and cried over many books together. Even on the days someone isn't in the mood to do school, all I have to do is crack open a Sonlight book and instantly the mood changes. Thank you Sonlight for creating a rich and meaningful experience together." Taryn W Valley Center, CA. Pictured: Colton (8) and Lilly (6) reading to baby Everett.

But with a Sonlight package, you get a variety of works, most of which are well within your children's reading ability, with some that require your children to concentrate more than normal. When you use a Sonlight package, your children read more widely than they probably would otherwise.

In Sonlight levels K through J, the literature is divided into two parts: Read-Alouds and Readers. The Read-Alouds you read aloud to your children; the Readers they read to themselves.

#### Read-Alouds

From the first beautifully illustrated Read-Alouds in preschool, the titles gradually progress to longer books with more complex plots. They often interweave with your history readings.

Carefully chosen to be ageappropriate, the Read-Alouds are weightier books than the Readers, with more challenging vocabulary and more thoughtprovoking topics.

You have a chance to explain things as you go along, to talk with your children about what you're reading and what you're thinking as you read. This is where true discipleship occurs, where you are talking with your children "when you sit in your house and when you walk by the way and when you lie down and when you rise up" (Deuteronomy 6:7).

Besides a dozen or so books of prose, each Sonlight Read-Aloud package includes at least one book of poetry. Most poetry books are collections of outstanding poems by various authors, though some years focus on the works of a single poet. Poetry books demonstrate unusual uses of language, with each poem offering the gift of a captured moment. Over the years, you will enjoy a wide variety of these gifts.

#### Readers

Each Sonlight Reader package features fascinating and engrossing stories that will captivate your children's interest and entice them to keep reading.

From the first Reader, the Fun Tales booklet "Pam" (which beginning readers can read after learning just six letters), Sonlight's Readers grow progressively more challenging as your children increase reading fluency.

Readers in the early years use simpler vocabulary, simple sentence structures, short paragraphs, large fonts, and fewer words on a page than do Readers in later years.

In the four Sonlight programs that correspond to early elementary school— Levels K, A, B, and C—you have six

different Reader packages to choose from. Because children learn to read at different rates, you have options. And if you have children of different ages combined together into one program, you can choose separate Reader packages that will best meet each of your children's unique abilities.

## With Sonlight, you get the materials and guidance you need to homeschool with confidence

Sonlight provides all your materials, schedules, teaching helps, and more, so you don't have to do significant research, planning, or gathering of materials. You can just grab your books, open up your Instructor's Guide, and learn together with your children each day. No lesson planning. No

researching books to fit in your schedule. No need to supplement . . . unless you want to. Just lots of fascinating learning alongside your children!

Skip the stress of planning, and spend your time enjoying the journey. Use the graphic on the opposite page to see which HBL programs are age-appropriate for your children. Then choose an HBL program based on what you want to study.

See pp. 40-69 for descriptions of each level. See pp. 102-113 for high school courses.

After choosing your HBL, complete your year by adding your remaining subjects: language arts (which may include handwriting or spelling), math, science, and electives.

HBL programs include a 15% discount off the retail price.
HBLs are included in All-Subjects Packages or can be purchased separately.

All-Subjects Packages include a 20% discount off retail price.

## EMBARK ON AN EXCITING ADVENTURE OF LEARNING IN OUR BRAND NEW PRESCHOOL PROGRAM!

These beginning years lay the foundation for a lifetime of learning. Our 30-week, no-pressure preschool program provides favorite children's book classics, plus engaging games, and hands-on Montessori-type materials and activities all designed to address the developmental needs of young children in a fun, relaxed, and interactive environment.

You'll ease into homeschooling, just 3 days a week, as you have the materials and guidance you need to gently build pre-reading, pre-math, pre-writing, listening, and motor skills. Your children will start to hear cadence and rhyme; they'll grow in their cultural literacy; they'll learn Bible stories and a story of God at work on the other side of the world. They will work with spatial relationships, build cognitive and motor skills, develop independence and self-confidence through practical life skills, and wade into rudimentary science.

All of this through picture books and Montessori-type materials and activities that your family will treasure and enjoy for years to come. Flexible and simple to teach, this program will provide the opportunity for your little ones to hear great stories, spend quality time with you, and explore the world around them through great books, play, and tactile activities.

Your children's exciting journey of learning is about to begin!

#### NURTURE A LOVE OF LEARNING FOR A LIFETIME

Sonlight's Pre-Kindergarten program bridges the gap between the delightful picture books of Sonlight's Preschool program, and the early chapter books and early academics of Sonlight K.

Using a few dozen books, some of which will become favorites that you'll read again and again, Pre-K starts to expand your children's knowledge of the larger world. These entertaining stories from around the globe will introduce your children to the world beyond your neighborhood.

You'll build meaningful relationships and delightful memories with your children. You'll teach alphabet sounds and verbal skills, and work through four sequential workbooks dedicated to reading readiness, so your children will be ready for phonics next year.

You'll give your children a basic understanding of the physical world through fundamental science concepts. You'll prepare your children with a broad foundation in Bible, introduce works of art, and investigate parts of history. Your children will develop key life skills, both cognitive and developmental—everything from following sequenced instructions to using scissors.

THE PRE-KINDERGARTEN PROGRAM INCLUDES:

#### SONLIGHT PRE-K INSTRUCTOR'S GUIDE

Includes the following resources for teaching all Pre-K subjects: full schedule, teaching helps, memory exercises, nursery rhymes, poems, songs, and activities. Each week includes 5 – 6 additional hands-on activities that coordinate with the reading. Perfect bound.

Our first year using Sonlight was one of the sweetest of years," acknowledges Veronica F of San Antonio, TX. "We spent hours reading, yet the simplicity of the curriculum allowed time for discussion, connection, and play. Oh how the children played, recreating the stories I read to them! For us, these books are far more than words on the page. They each hold a greater story, found in the deepest parts of our hearts. Thank you, Sonlight, for being such a special part of our own homeschool story."

I was homeschooled for one year with Sonlight, so I returned to Sonlight when I decided to homeschool. I originally planned to put my daughter in school for kindergarten, but we were having so much fun with Sonlight, we kept going! Eight years in, and I still love everything Sonlight has to offer. My kids are articulate, curious, and confident. I attribute this to the time we've spent together. I am incredibly grateful to Sonlight for giving us the tools to teach our children and share these experiences with them!!" Sunny R of Castle Rock, CO.

#### YOUNG ADVENTURERS: EXPLORE GOD'S BIG WORLD

In Sonlight A, children learn two big ideas: past civilizations existed, and people—both in the past and today—live in different ways throughout the world. In this 36-week program, you'll introduce your children to the amazing diversity in the world.

Sonlight A shows children how others live—often quite differently from current cultural trends! With students' increasing understanding of the world, they start to see situations from another person's point of view, which helps them relate to others. Children also grow a healthy curiosity about the world around them.

The books naturally lead to conversations—about faith, about character, about relationships. These books present worthy heroes who display courage and honesty, who work hard, who love their families, and who do the right thing.

From hands-on activities, to stories they'll remember their entire lives, get ready for lots of laughs and joy. May you discover together that learning really is fun!

#### TRAVEL THE GLOBE ON A THRILLING ANCIENT ADVENTURE

How did we get from Adam and Eve in a garden to a world population of billions of people living in thousands of vastly different cultures? Find out in this two-year World History overview.

In this 36-week program, the first half of your two-year study, your children will learn about countries, currencies, languages, and cultures as they move through a chronological trek from Creation through the Fall of Rome.

A Child's History of the World serves as the centerpiece of your children's studies. This book meets children at their level and brings them into the stories and events that shaped the ancient world. Your children will get a real sense of what it was like to live in Ancient times.

In addition, you'll meet heroes who followed God's call, enjoy more than 200 glorious poems, laugh with the classic literature, and learn more than you would have thought possible.

With Sonlight B, you'll discover the breath-taking, fascinating story of God's whole world, and have a marvelous time while doing so.

Prefer a one-year world history option? See HBL B+C, p. 52.

#### **JOURNEY FROM THE FALL OF ROME TO THE 20TH CENTURY**

This is the second half of Sonlight's overview of World History. In this 36-week program, experience the last 1600 years of World History. Watch the rise and fall of civilizations from the Fall of Rome to the Cold War. Learn both the roots of Western thought, and watch how ideas changed the world in the Renaissance. Travel with the explorers into the unknown during the Age of Exploration, and see how revolutions and inventions created the world we know today. You'll acquire an overview of how civilizations have developed all over the world, and learn about several key people in history, such as Queen Elizabeth and Peter the Great. And all of this through books specifically chosen to be appropriate for elementary school.

You'll enjoy several pieces of literature that connect with the time period (*The Door in the Wall, Sir Lancelot the Great*); your children will improve their reading, with carefully curated books; and you, too, will fall in love with books that have been customer favorites for decades. You'll gain cultural literacy through scores of Aesop's fables, and the classic stories of Robin Hood and King Arthur's court, as well as the gorgeous art of Michelangelo.

Sonlight has been a blessing to our family as it has fostered a love for rich stories leading to deeper discussions and understanding," shares Sarah H of Cochranville, PA. "Our children have learned about different people groups around the world and across history through quality literature. I am grateful that reading books together is something we can do as a whole family, and that we parents are learning alongside our children, our younger children learn from listening in on their older siblings' books, and our older children can enjoy old favorites again."

## DISCOVER THE FOUNDATION OF THE UNITED STATES— AND THE PEOPLES WHO WERE ALREADY THERE

Year one of a two-year study, in this 36-week program, your children will come to know the context and progression of American history from the years before Columbus through the 1850s, just before the Civil War.

You'll learn about the civilizations that lived in the Americas before the Europeans arrived, and the challenges that settlers faced as they came to a new land. You'll learn about the Founding Fathers and the Constitution. You'll meet famous Americans like Pocahontas and Benjamin Franklin, and ordinary Americans who did extraordinary things for God, like Ann and Adoniram Judson.

You'll focus on the hard-working, vibrant attitude that helped families of settlers, immigrants, pioneers, and pilgrims overcome big obstacles. The central history book this year tells fascinating stories about the social forces and cultural influences that shaped early America. The several dozen additional books round out your look at early American History. Prefer a one-year American History option? See HBL D+E, p. 58.

#### EXPERIENCE AMERICA'S HISTORY FROM THE 1850S ON

This 36-week program covers the second half of American History, from the Civil War through the late 20th Century. History comes to life—Westward Expansion, the Industrial Revolution, WWI, and WWII. Throughout this program, you'll watch characters grapple with the difficulties around them, and overcome in the end.

The central history book focuses on how Americans' unique perspective—egalitarianism, desire for change, and a "can do" spirit—contributed to inventions such as ready-to-wear clothing, department stores, and skyscrapers. Discover how time zones and fast food came into existence. Examine how mass immigration, women's suffrage, the labor movement, and the Great Depression impacted the social, political, and economic climate of the country. Discuss how racism has influenced life for individuals and the entire nation through the years.

With Sonlight E, you'll get an engaging study of the American spirit of creativity and entrepreneurship, through biographies, historical fiction, excellent books, and great conversations.

#### JOURNEY THROUGH ALL OF AMERICAN HISTORY

Experience the dramatic story of American History! Starting with the years before Columbus and the Europeans, this program covers the colonial period, the Revolutionary War, the gradual expansion of the States, the Civil War, and up through the Twentieth Century. This program includes only the most vital books from two full years of study (Sonlight D and E), here condensed into one.

This 36-week program gives your children a broad overview of an influential and ever-changing nation. You'll learn about characters and events: explorers, Native Americans, the Founding Fathers, famous inventors, and ordinary people with extraordinary stories. As you read, you'll gain a foundational understanding of a unique people, culture, and country. The Read-Alouds and Readers tie together with the history, for one exceptional, immersive experience.

If you want your elementary students to study American History but would rather not take two years to do so, this program is for you.

#### TRAVEL TO THE EAST AND GLIMPSE GOD'S HEART FOR THE WORLD

In Sonlight F, you study the majority of the people in the world. Unlike other Sonlight programs, this one doesn't move chronologically through history. Instead, it's a cultural study that acquaints your children with the fascinating peoples and nations of the East.

In this 36-week program, you'll study China first, and then move on to the rest of Asia, over to the Middle East, down to Africa, through the South Pacific (including Australia and New Zealand), and end in Antarctica. You'll get to know the peoples and cultures of places you may never have studied in depth, including Japan, India, Vietnam, and Russia.

With Sonlight F, your children will gain God's heart for the lost and be inspired toward greater compassion and courage through the many featured missionary biographies.

And as your children see Christianity compared to religions of the East, they will appreciate even more what a great God we serve. We do not pray to lifeless idols; we are not stuck in an endless cycle of reincarnation. Our God is alive, loving, and powerful!

Our favorite homeschool memories are the journeys through time and around the world that we take through reading books out loud," shares Christy D of Tremont, IL. "Eastern Hemisphere has been my favorite level. However, after every new year, I have a new favorite! Thank you Sonlight. Learning about the Eastern Hemisphere inspired a field trip to Chinatown in Chicago."

#### WITNESS THE RISE AND FALL OF ANCIENT EMPIRES

Sonlight G fosters your students' ability to think critically and make connections through the flow of human history, from creation through the transformative 1600s.

The stories you'll read in Sonlight G bring long ago times to life. Over the course of 36 weeks, your students will be taken on a gripping, story-based trek through history as you journey through Ancient Mesopotamia, Egypt, Greece, Rome, and more!

Sonlight G's cohesive, interconnected curriculum builds on three primary history texts, then adds compelling historical fiction, Greek myths, biographies, and other titles. Some of this you probably already know—the Nile and the Mona Lisa, King Arthur, and the Roman occupation. The invitation to you now is to go deeper. Learn about travel on the Nile and usurping monarchs. Speculate about Leonardo da Vinci's motivation. Consider the technological advance that allowed the historic Arthur to reign. Picture the people under Roman rule.

Finish your world history studies next year with level H. Prefer a one-year World History option? See HBL W, p. 66.

#### **EXPLORE THE CHANGING WORLD OF THE LAST 500 YEARS**

Sonlight H completes the study that began in Sonlight G. Get a backstage pass to the last 500 years of World History—colonial rule and colonial rule overthrown, the influence of the Renaissance on the American and French Revolutions, the World Wars and life for everyday people during those wars. In this program, you'll meet the people whose ideas and actions forged the course of history, from reformers to rocket scientists. Gain a working knowledge of what happened from the 17th century to about 1990.

In this 36-week program, you'll also discuss some uncomfortable realities of history—things like the Holocaust, poverty, and war. This program will give your children heroes who faced real challenges, persevered, and triumphed in the end. May these real individuals inspire your children to become people who persevere with courage, strength and honor.

Sonlight H includes a mix of challenging books and fun books. You'll find thrilling adventures, laugh-out-loud scenes, and heartwarming stories, for a thoroughly enjoyable experience.

#### TRAVEL THROUGH THE HIGHLIGHTS OF HUMAN HISTORY

If you want your middle school or early high school students to have a thorough overview of world history, but only have a year to dedicate to that study, this 36-week program is for you. From the very start of recorded history through the modern era, you'll come away with a clear picture of famous events through time.

Sonlight W includes a tremendous amount of high-quality literature. In order to make all the reading manageable, this program uses the clear and easy-to-understand A Child's History of the World as a foundation. From that starting point, you'll expand your studies with the best books from Sonlight programs G and H.

Your students will develop critical thinking skills, will understand their own and others' cultures, and will see connections between civilizations around the world and through recorded time.

Sonlight W is a wonderful introduction to the delight of learning. The approachable and winsome books compel students to keep reading. Your reluctant learners might even start reading ahead of schedule! Some Sonlight parents have used this program for high school credit.

Because of the amount of material covered in this program, Level W is only available as a 5-Day option.

#### DISCOVER SCIENTIFIC INQUIRY OVER THE LAST 4000 YEARS

Pythagoras proved his famous theorem using a stick in the sand. No mathematical digits—they wouldn't be invented for over a thousand years. Hundreds of years before Christ, Eratosthenes accurately calculated the size of the world using the angle of sunlight in a well on the summer solstice.

Newton compared the trajectory of an apple, a small terrestrial object, with the moon, a heavenly body, and wondered if maybe they were both subjected to the same force. Genius.

Einstein imagined spaceships traveling at near light-speed, and changed the way we view the universe.

In this 36-week program, students will explore 4000 years of scientific thought. Witness the curiosity, egos, quirks, and flashes of brilliance as people sought to understand how the world works. Read the stories of how people discovered scientific and mathematical laws, and grasp the significance of chemistry, astronomy, physics, and advanced math.

Sonlight's J provides an in-depth study of how science and history intersect. It's a phenomenal story.

## **READER PROGRAMS**

#### SONLIGHT FARLY FLEMENTARY READERS

Sonlight has brought so many beautiful books into our lives." shares Sophie A from Coquitlam, BC Canada. "When my oldest daughter first became an avid reader, I spent so much time trying to find appropriate literature for her. I downloaded book lists, met with librarians, bought books about books. Then we found Sonlight. Sonlight set the standard for what a good children's book should be. We know that we can expect something delightful from each one. Now, everybody gets very excited when it's time to open a Sonlight box. "Top left pictured: Nathan (6) and Anaiya (5) are opening next year's box.

very Sonlight History / Bible / Literature program includes Readers. The goal: help your students love to read by giving them fun, real books they can read successfully.

You'll begin in the earliest levels with phonics-based reading instruction. Reading lessons move your children through a natural progression of phonetic and spelling patterns. Your Language Arts IG includes spelling, grammar, and creative writing.

Customize your early elementary Sonlight History / Bible / Literature program by choosing the grade of Readers that matches your child's reading ability. Use the free Reading Assessment at sonlight.com/reading to select the appropriate Reader levels for your family.

#### Sonlight's Pre-K Program

Readers are an optional add-on. If your children are ready to learn to read, consider getting the Pre-Kindergarten program with K Readers (p. 43).

#### History / Bible / Literature K, A, B, C, or B+C

Pick from the Reader options to complete your History / Bible / Literature level in Sonlight K, A, B, C, or B+C.

#### Readers for History / Bible / Literature D & Above

Beginning with HBL D, the Readers tie directly into the history content of the HBL. These masterfully written, adventure-filled stories help to cement the transition from "learning to read" to "reading to learn."

In Sonlight D, you can choose Regular or Advanced Readers. For children who are voracious readers, or are on the older end of the HBL D age range, choose the Advanced Readers. The Advanced Readers include all of the Regular Readers, read at a faster pace, plus additional books.

We recommend you start with the language arts level that matches your student's ability first, then choose the matching Reader set, regardless of reading ability. We offer a free Language Arts Assessment on our website at sonlight.com/assessment

# **LANGUAGE ARTS PROGRAMS**

HELP YOUR CHILDREN BECOME EXCELLENT WRITERS

Sonlight's Language Arts program is not your typical approach to learning, and that's why these kids are smiling!" declares Ashley L of Hattiesburg, MS. "Anyone who thinks learning can't be fun hasn't tried Sonlight. I chose Sonlight because it was an all-inclusive curriculum that I could use across multiple grade levels, but we've stuck with it because of moments like these, everyday moments where my children enjoy learning together. Sonlight is the best choice our family made for our homeschooling journey! It's given us a rich learning experience and strengthened their sibling bond." Top left Picture: Apparently, coming up with synonyms is more fun than you might think!

When your children were young, you taught them to speak as you spoke to them. In the same way, children learn to write by learning from good models of writing and trying out those models for themselves. We call this the natural approach to language arts.

Sonlight Language Arts programs flow from this principle. Each program

guides your children through well-paced writing activities based on the Readers they're already enjoying in their HBL program. As your children grow, these activities will guide them through writing their first sentences, simple paragraphs, and stories, until they're eventually writing gripping creative works and compelling scholarly papers.

# Learn to write naturally from excellent models

"Workbooks don't really teach children how to write effectively," says Dr. Ruth Beechick, homeschool expert. Instead, students learn to write well as they:

- · Listen to good writing
- Look at good writing
- · Copy good writing, and then
- · Write on their own.

"Benjamin Franklin taught himself to write this way," explains Dr. Beechick. "He outlined essays he admired, put them aside for a few days, and later tried to rewrite the original article by following his outline. He compared his writing with the model to see where he fell short. Then he tried another, improving his writing all the while."

With Sonlight Language Arts, your students will practice natural learning exercises like these. And practice is key!

#### Students write a little every day

Writing lessons come from the books your children read throughout the year. As a result, your children remember and comprehend more.

Their creative writing lessons apply Dr. Beechick's "natural learning method," where children learn by discovery. They observe, analyze, and then seek to emulate what they have seen a master wordsmith do before them.

- Students practice copywork and dictation to absorb critical writing skills from excellent writers.
- Students learn grammar gradually, in the context of daily copywork. Sonlight also uses natural language-oriented student Activity Sheets to provide additional instruction in grammar.

- Students learn writing mechanics—from similes to diction to organization—as they build on each day's practice.
- Students explore creative writing with tools like story-starter pictures and iournals.
- Students write about what they learn in history, science, and literature.

### **Grow writing skills**

Students encounter spelling words tied to phonics in Sonlight Language Arts up through second grade. In upper elementary grades, they continue to build vocabulary with words from their books. They reinforce correct spelling through one of the spelling programs we offer: All About Spelling or Spelling You See (see p. 79).

In Sonlight D, your children make a smooth transition from the basic mechanics of writing to more in-depth independent writing.

In Sonlight E-J, young writers draft a wide variety of papers, edit their work, and learn to research. Writing assignments range from personal letters and stories to advertisements and news items.

In every assignment, you'll find plenty of examples to follow from the books your students read. These are the good models they learn to emulate. In time, they grow from these examples.

# Discover what makes great writing truly great

As your students grow in understanding, they move from basic writing to analysis. Students in middle through high school continue to write creative papers similar to their work in Sonlight E-J, but at a higher level. They also analyze and write about the books they read, including

such concepts as plot, characterization, mood, & setting.

New and experienced Sonlighters alike find the natural method to be an appealing way to learn to write well. View all of Sonlight's Language Arts programs on the following pages or visit sonlight. com/language-arts

I almost cried thinking of my 3rd grader independently working on his descriptive paragraph, confidently and without tears. While this is our 3rd year using Sonlight, it is our first year using Sonlight LA. Our previous experience with other Language Arts curricula always resulted in tears and frustration. Why I trusted Sonlight with history but not LA is beyond me! The method is gentle yet effective. Sonlight Language Arts gives our son the confidence to face his challenging subjects and succeed," attests Ellen S of Enterprise, AL.

#### **All About Spelling**

Brings together the three pathways to learning: hearing, seeing, and touching. This multisensory

approach, combined with a built-in review system and reinforcement activities, ensures students retain and apply what they learn.

If you're just beginning to teach your children spelling and want a program that appeals to a variety of learning styles, or if your children need remedial help, this customizable program could be an excellent fit. Step-by-step lessons (mastery-based, not grade-level based) build on one another in a sequence that has been carefully tested to produce long-term results.

The research-backed method follows the five developmental stages learners go through on the way to spelling mastery. Short daily activities—using fun, engaging, and meaningful stories—combine dictation, copywork, reading, speaking, and listening. Over time, the repetitive process imprints letter patterns and words in visual memory, supports long-term retention, and equips children to spell words correctly in everyday writing.

A skills-based program (i.e., there are no grade levels), students proceed at their own pace as they master concepts. Please order one per student.

According to its occupational therapist developer, this is the only developmentally-based program on the market, which means it pays particular attention to the needs of children who are learning to write. It offers basic exercises in figure-ground discrimination and top-to-bottom, left-to-right sequencing.

With letter formation, it begins with capitals because, unlike lowercase letters (p, q, b and d, for example), uppercase letters are easy to distinguish. Kids don't mix them up. You'll note that cursive letters are formed in an upright rather than slanted position.

The program is especially helpful if your children have significant learning challenges and physical limitations. Parents also say it's easy to use with left-handed writers.

This program uses daily practice drills focused on verses from Scripture, as presented in the Living Bible paraphrase.

It follows the traditional "ball-and-stick" style of print, along with standard cursive. Fancy border sheets help motivate young writers to think of the public nature of their work and improve their skills for a beautiful presentation.

Caveat: Students may find that different letter formations for cursive (vs. manuscript) are initially confusing.

This Portland University program has won its share of accolades. Sarita added it to the product line when one of her sons, whose handwriting was atrocious, began making noticeable strides from the first day.

Its cursive characters are almost identical to its print characters, so the transition from print to cursive is easy. The attractive text is similar to calligraphy. (A student won a national writing contest with this style.)

Caveat: Because schools don't use the nonstandard italic method, some children may not initially recognize copy written in a more traditional cursive.

GREAT BOOKS + ENGAGING ACTIVITIES + HANDS-ON EXPERIMENTS = SONLIGHT SCIENCE

After trying different curriculums, I finally tried Sonlight. After a few months in Level C, for the first time in our homeschool journey, I felt like my children were getting a truly quality education - the type of education I had always hoped they would have but had never been able to piece together on my own. I trust this curriculum. That feeling really is priceless." Charley F of Grand Island, NE. Top right picture: Samantha (5) got her own science. Science is a fantastic way to cultivate a love of learning at early ages.

Sonlight offers complete and easy-touse hands-on science programs from kindergarten to college-level lab sciences. Each program includes an Instructor's Guide, a collection of great books, and hands-on experiments.

Sonlight Science covers the full spectrum of science studies—from earth, space, life, health, physical, electrical, and technological science, to college-level lab sciences (chemistry, physics, biology and more). Your children will learn these subjects in greater depth as they circle back through each topic over the years.

# Sonlight Science will inspire you and your children to love science!

Sonlight science lays a firm foundation of scientific understanding as it builds on, and fosters, your children's natural curiosity about how the world works. Delight your children with the wonders of Science, Technology, Engineering, and Math (STEM).

# Science Instructor's Guides (IGs)

Each Sonlight science program is anchored by a customer-renowned Instructor's Guide. The IG provides the structure for your entire year, with everything clearly laid out. No need to create your own lesson plans.

The IG provides the framework for what books to read and when, what experiments to do and what videos to watch. The IG also includes question prompts, explanations, hands-on activities (beyond the experiments), and additional notes to enhance the reading and reinforce what your students are learning.

Each IG includes a list of what supplies you will need both for the current week and the week to come. (Need to save a milk carton for next week? Now you know!)

Instructor's Guides in levels K-J also include

Activity Sheets filled with questions and simple activities, charts, illustrations, and pictures to help your children remember what they've learned. Teaching multiple students? You can purchase an extra set of Activity Sheets for each student (or if you plan to reuse the program with a younger student later on).

# 2 A Collection of Great Books

Each science program comes with gorgeously illustrated books that captivate students and entice them to read more. Your children will not only learn the facts of science, but also gain a love of discovery and get to know key scientists. These books become valued references for years to come.

# More Cohesion Between Reading and Doing

**And NEW in 2021**, Sonlight Science levels K-C become a more interconnected experience. Every week, your students will engage in an experiment *directly tied* to the rest of the content they study in their scheduled reading. The literature provides the context, while the experiments allow your children to experience the scientific process for themselves.

# 4 Hands-On Experiments

There is no better way to delight your kids with the wonder of science (and reinforce lessons!) than by experiencing it firsthand through hands-on activities and experiments. With Sonlight Science, your students will conduct simple, engaging, hands-on experiments and activities, all while reinforcing the concepts learned in your reading.

New in 2021, Sonlight Science levels K-C now include Discover & Do: Science Experiments. With Discover & Do, children will not just memorize the steps of the scientific process. Rather, they will conduct simple, engaging, hands-on experiments at home and actually use the scientific method to explore their world in an enjoyable and interactive way.

Each experiment ties directly to that week's reading material for a more linear progression from reading to doing. Thanks to this new approach of Discover & Do: Science Experiments, your end-of-week experiments reinforce and apply the concepts studied in the days previous so you can plainly see your childrens' developing mastery of particular science concepts.

Most of the experiments in Sonlight's Science Programs can be done with common household items, but to minimize prep time, we've created a Science Supplies Kit that includes many of the supplies, templates, and worksheets you need to conduct each experiment. The supply kits include those things you probably don't have lying around the house–everything from marbles and magnets to seeds, straws, powerful magnets and more. Minimal prep time!

Additionally, Sonlight Science level K includes the all new Discover & Do: Science Experiment Videos. These videos provide reinforcement of the concepts observed during the experiment and heard in the weekly reading passages. The highly entertaining videos reenact all of the experiments your students perform, providing review, additional factoids, and excitement to truly enhance your entire science experience. Stay tuned for new videos in additional levels!

With Sonlight Science, your children learn by first reading about and then by actually doing the science!

# Next Generation Science Standards (NGSS)

The new, 2021 Sonlight Science levels K-C were designed to follow the classic Sonlight model of learning (reading, discussing, and doing) while also adhering to the Next Generation Science Standards (NGSS). These research-based, up-to-date science standards are simply good instructional practice. Dozens of scientists, esteemed scientific institutions, and science-based businesses have put their support behind these standards. Now you have even more assurance that Sonlight Science provides an outstanding science education — at home. \$\infty\$

# WATCH A SAMPLE OF THE NEW DISCOVER & DO EXPERIEMENT VIDEOS

Sonlight allows us to have an enriching education without having to go to a private school," shares Aaron M of Lawton, OK. "Enjoying science time and experimenting with ideas from the books we read is the best mixture of curriculum for my family."

#### Science K

# Ecosystems, Meteorology, Physics, and Engineering Design

Grades: K-1 • Ages: 5-6

☐ 4-Day \$236.85
☐ 5-Day \$251.80

From the heat of the sun to the eyes of an insect, Science K nurtures children's natural curiosity and provides daily opportunities to explore the world around them. Children will use real scientific skills and practices as they explore rainforests and encounter reptiles, insects, plants and more. Science K includes a high-level introduction to forces, matter and other STEM topics that will prepare students for a lifetime of scientific curiosity, learning and application.

Weekly experiments tie directly to the week's reading material for a more linear progression from reading to doing. Thanks to this new approach of Discover & Do: Science Experiments, your end-of-week experiments reinforce and apply the concepts studied in the days previous so you can plainly see your child's developing mastery of particular science concepts.

The Discover & Do: Kindergarten Science Experiment Videos reenact all of the 36 experiments your students will perform, and provide reinforcement of the concepts observed during the experiment.

#### INCLUDES:

- ☐ Science K Instructor's Guide

# MATH-U-SEE

(Grades K-12)

Created by a longtime teacher, Math-U-See is a hands-on, student-paced, mastery-based approach that focuses on developing a true understanding of mathematical concepts transferrable to real-world application.

You'll follow a 4-step approach to introduce, review, practice and master concepts. Since math is learned sequentially—independent of age or grade—the program teaches skills that build on previous principles as your child progresses.

The multisensory "Build it – Write it – Say it" method of instruction lets children explore each new concept and helps you assess their understanding before continuing. Simple manipulatives help students visualize what they're learning.

#### Math-U-See is:

- Concept-driven: Children gain thorough understanding by learning how to solve math problems, why they're solved in the prescribed manner, and when to apply the concept.
- Mastery-based: You'll know when they've mastered a concept when they teach it back to you, indicating readiness to learn the next skill.

 Skills-based, multisensory approach: Math-U-See addresses the different ways we process information. As your children incorporate all senses in meaningful ways that aid retention, they'll build essential cumulative skills.

Math-U-See is included in every Sonlight All-Subjects Package, but you can customize to choose a different math online.

#### Other considerations

You may want to review the video instruction prior to each lesson to ensure that you understand how each concept is best taught. You'll find that using every component of the program— instruction manual, video lessons, manipulatives, practice and review pages—will contribute to your student's success.

Because the program isn't based on grade level in school, use the placement tool on our site to determine where your students should start.

#### Horizons Math

(Grades K-6)

Horizons is easy to use, with a familiar and friendly approach for students, plus thorough guidance for the instructor.

You'll use a proven spiral learning technique to introduce your children to a concept, and then help them learn to solve related, increasingly difficult problems.

Students' minds are free to concentrate on each new concept, without feeling overwhelmed by information. As you revisit concepts over time, students strengthen and reinforce their knowledge base.

The program is full of helpful suggestions and ideas, such as what household items you can recruit to serve as creative manipulatives. If you prefer, Sonlight offers ready-to-use kits with all the manipulatives you need, in a convenient storage case.

- Two colorful, well-organized workbooks, each with 80 lessons and 8 unit exams
- Teacher's Handbook with daily lesson plans, answer keys, and final exams
- 80 reproducible worksheets

Purchase the basic program once for each grade. Along with reproducible worksheets, package includes workbooks you can order separately for additional students.

#### Other considerations

For children especially sensitive to visual stimuli, Horizons' color illustrations may be a distraction.

# Singapore Math

(Grades K-6)

When the International Association for the Evaluation of Educational Achievement tests the relative strengths and weaknesses of various programs, Singapore students consistently rank #1.

Singapore is extremely clear, highly logical and sequential, with a strong focus on mental math. Students get the appropriate amount of practice, without excessive repetition. Challenging word problems build thinking skills, and students apply math in a variety of situations. The program teaches geometry throughout.

Each year of Singapore Primary Math (K-6) includes two full-color textbooks and two blackand-white workbooks.

Sonlight has also developed unique Home Instructor's Guides for the Primary Math programs 2A-6B. (Due to the simplicity of the math, lower levels have no guide.) The guides bridge the gap between textbook and workbook. We lay it all out for you: concepts you'll cover, pages you'll reference, and numerous exercises to reinforce the concepts you're teaching.

#### Other considerations

Because Singapore Math is generally a year ahead of U.S. math programs, most children need to begin with the "B" book of the year prior to their current grade.

Some students require more review and drill than is contained in the main texts. We provide supplementary materials for most Singapore programs.

Though Sonlight offers U.S. versions of Singapore Math, the sequence of concepts doesn't always follow a typical U.S. curriculum. For example, students may learn to multiply and divide simultaneously, rather than at different times of the semester.

#### Saxon Math

(Grades K-12)

Students using Saxon Math earn consistently high scores on standardized tests. The program is extremely strong in areas of arithmetic computation and mathematical principles (distributive, commutative, etc.).

Saxon is easy to teach, and from 4th grade up requires little parental involvement. It includes lots of guidance on exactly what to say and do. The early elementary programs include—and require—many manipulative activities. Sonlight offers complete kits with the necessary items.

Saxon packages include everything you need to teach one child. To use the program with additional or successive students, purchase additional consumable tests and worksheets.

Beginning with Saxon 5/4 and on up, packages include Dr. David Shormann's DIVE Into Math CD instruction. On-screen illustrations, tips, and alternative problem-solving approaches help your student maximize learning.

#### Other considerations

For students who don't require as much drill, Saxon can be repetitive.

In comparison to other programs, it may be lacking on application-oriented problem solving and modern presentation (use of charts, graphs and other effective teaching tools).

For more details, visit sonlight.com/saxon

This year has been a wonderful year! Isaac (10) and Ziva (8) dove head on into gymnastics, competing at the district level," shares Rohini G of Bangalore, Karnataka, India. "We continued to school despite heavy practice sessions. Math was interspersed with training at the gym. Reading books were read in the car or as we waited for competitions to begin. Bedtime reading helped us unwind after a hectic workout. The flexibility of learning no matter where you are is a joy, a break, a relief, and blessing. We could not have done this year without all the wonderful books from Sonlight."

# Miguon Math

(Grades 1-4)

Miquon Math is one of the best tools to teach younger students how to think mathematically. Miguon teaches all four arithmetic operations (addition, subtraction, multiplication and division) beginning the first year, and even introduces algebraic notation, geometry, and diagram-reading in the first book.

The program emphasizes patterns and relationships (rather than pre-set formulas and methods), and uses manipulatives and unique graphic layouts to help children discover and understand those concepts.

Parents often choose Miguon as a fun supplement, though some use it as the main math program in early elementary years. When they finish the last book in the series, most students are well-prepared for the 4th- or 5thyear books in other programs.

#### Other considerations

Miquon requires curiosity, flexibility, and openness to investigation. If your children prefer to be given the facts, the discovery-oriented approach may not be appealing.

If you begin the program past the initial 1st/2nd Grade offering, we encourage you to start with the prerequisite books from the prior grade, as Miguon can be difficult to jump in midstream.

Because parents and children work together to share ideas and discoveries, Miguon may require a greater time investment than other programs.

Miguon doesn't cover long division.

For more details, visit sonlight.com/miquon

We've tried a lot of curriculums over the years but once we found Sonlight, we knew we didn't need to look any farther. We had found the best curriculum for our family. I cannot thank Sonlight enough for creating the hands-on lap books for Sonlight History programs. My daughter, Desi is extremely creative and loves 'crafting'. It has sometimes been hard to get her interested in history readings, even with the excellent books Sonlight uses," shares Donna G of Flint, TX. "I have found that the lap books have helped her retain her lessons, bringing joy to learning history. She now says that history is one of her favorite subjects!"

We love how the Hands-On History Project Kit is reinforcing what we are studying in history. The projects really drive home certain aspects of what life was like in the past," says Felicia F of Puyallup, WA. "We are also so grateful for the beautiful works of literature we would never have chosen ourselves. Every new book, Jonathan exclaims, 'That was my favorite book!' and when asked which is his favorites so far, he always says, 'All of them!'"

# **HIGH SCHOOL OVERVIEW**

# STUDENT-DRIVEN, RIGOROUS, ENGAGING, INTERESTING, ENJOYABLE

Sonlight's high school courses emphasize critical thinking, and engage students with interesting and thought-provoking books. These courses are structured with the flexibility of a traditional high school course catalog, and cover a variety of courses you can use to create your students' schedule.

Mix-and-match from five History / Bible courses and six Literature / Language Arts ("English") courses to make the best program for your students. Round out your schedule with science, math, and electives.

#### **Academic Excellence**

Sonlight high school students enjoy an interesting and rigorous college-prep education that's equivalent to the finest schools in the country. We've even had parents report that Sonlight's courses have more and better content than their local community colleges!

Sonlight offers a variety of courses to help your student prepare for AP exams, and many students use CLEP tests after their Sonlight work to earn college credit.

Sonlight's high school courses fully prepare students for college, the workplace, or any other vocation. When you choose Sonlight, you know you're giving your children the academic foundation to succeed in life.

# **Designed for Independent Study**

Sonlight's high school courses are designed for independent study. Students are old enough, and prepared enough, to read the books and notes independently.

Each Sonlight high school course comes with both a Parent Guide and a Student Guide, with a complete schedule and notes.

The Student Guide contains discussion and thought questions—some questions covering basic comprehension, and some more like collegelevel analysis. The Parent Guide contains the same information, along with answers. Some parents find their students can work completely independently with access to the Parent Guide to check their work.

You don't have to be an expert in any high school subject—the Instructor's Guides serve as the teacher. Your role is that of support: teach organization, talk through test-taking strategies, assign and grade research papers, and discuss lots and lots of great books.

Filled with excellent books and top quality notes, Sonlight's high school courses are designed to support a wide range of high school needs. 💸

#### Explore how writers have repeated themes over 4000 years and six continents

Works from every inhabited continent, from ancient Babylon to contemporary England—four thousand years of literature. War. Journey. Self-discovery.

The Iliad portrays war; The Odyssey portrays a journey. The Aeneid splits its story between both war and journey. The Inferno is a journey, and a trip of self-discovery. Self-discovery shows up in Oedipus Tyrannus, the Greek play, and in Things Fall Apart, a 20th Century Nigerian novel.

For cultural literacy and shared humanity, it doesn't get better than this.

#### Videotext Interactive (Grades 8-12)

VideoText Interactive teaches Pre-Algebra, Algebra 1, Algebra 2, Geometry, Trigonometry, and Pre-Calculus.

The program employs the mastery method of learning, so students master one concept before going on to the next. VideoText teaches each concept as a manageable bit of information, so students efficiently learn the hows and whys of math. Additionally, the new information comes up again in the lessons which follow. Students conduct their own error analysis and learn to teach back the concepts they have mastered. For Additional information, visit sonlight.com/videotext

#### VideoText Algebra Bundle

\$565.90

An alternative approach to Pre-Algebra, Algebra 1, or Algebra 2! In this program you will find a complete study of the essential material covered in traditional Algebra 1 and Algebra 2 courses. When a student completes Algebra, they can claim credits for Pre-Algebra, Algebra 1, and Algebra 2.

#### **INCLUDES:**

- ☐ 176 multimedia lessons (online access)
- Course Notes
- ☐ Student WorkText
- Solutions Manuals
- Progress Tests

#### VideoText Geometry Bundle

\$482.00

The Geometry program addresses two of the most important aspects of mathematics instruction. First, the inquiry-based format more thoroughly engages students as they learn concepts. Second, the program presents each incremental concept in detail, using no shortcuts, tricks, rules, or formulas, and leaving no gaps. When a student completes Geometry, they can claim credits for Geometry, Trigonometry and Pre-Calculus.

#### Lead your students with confidence through high school and beyond

Planning for your children's future doesn't have to be stressful. This course is designed to help you and your teens make the most of their high school years.

Authored by two Sonlighters, Kelly Lutman and Barbara Walsted. These experienced homeschoolers both have walked this path with their children. They offer you a wealth of wisdom and practical tips that will help your students make the transition to college and career with grace, ease and success.

We've tailored this course specifically for homeschoolers:

- Help your students discover their gifts and abilities.
- Gain confidence in how best to present your students' homeschool achievements to college admissions counselors.
- Streamline the college application process and uncover secrets to make higher education lighter on your pocketbook.
- Save time by keeping your college search paperwork in one place.

Challenge your children to be all God created them to be. Take joy in watching them grow. Then help them walk into a future that keeps their dreams alive and brings their goals to fruition!

Your students can use this course in as little as 9 weeks or as an ongoing tool throughout all of high school. Learn more at sonlight.com/career-planning

#### AP\* Psychology prep from Sonlight

The Sonlight Psychology package ties in the science of psychology with the art of understanding how people work.

Jeff Corson has been teaching Advanced Placement\* Psychology since 1999 and has enjoyed not only seeing students grow, but has also seen them perform well above the national average (80-93%) in achieving college credit for the course.

Corson negates the perception that psychology is the domain of unbelievers and views it simply as the study of God's workmanship. His workbook helps prepare students to maintain and strengthen their faith in a college/world environment where their beliefs may be challenged daily.

Corson suggests a timeline of August to April for students who want to take the national Advanced Placement\* Psychology test in the U.S. in May.

Corson's workbook uses a textbook that features history, facts, terms, real-world applications, and a sprinkling of laugh-out-loud cartoons.

This course is a great introduction to psychology for aspiring college students or anyone interested in human behavior and design. Learn more at sonlight.com/psychology

# SONLIGHT FOUNDATION SCHOLARSHIPS

Over the past 22 years Sonlight has provided more than \$1.5 million dollars in scholarships. **Let Sonlight help you pay for college!** 

From preschool through high school graduation, Sonlight prepares your students. We have the big picture in mind, and we help you raise students prepared to launch into any career God calls them to. We share your desire to help your children succeed, and we'll walk alongside to help you create the long-term educational experience your family envisions.

Each year, our charitable foundation offers a number of college scholarships, ranging from \$4,000 to \$20,000, spread over four years.

The Sonlight Foundation offer scholarships on two tracks: one emphasizes academics, and the other creativity, missions-mindedness, and service. Got a perfect score on the SAT? Got average test scores, but served overseas during summer vacation for the last three years? In either case, you may qualify.

We recognize that academic giftedness is only one type of giftedness. If your student is gifted in academics, service, music, art, or has a heart for missions, we encourage you to learn more.

# TO CHOOSE SONLIGHT

Will Sonlight be a good fit for you? With homeschool curriculum, it's important that you choose the right program that fits your unique family the best. Sonlight is not your average homeschool curriculum! In fact, new Sonlighters are often surprised at just how easy—and pleasant—homeschooling can be, thanks to the fully planned Instructor's Guides and fantastic books. Here are 17 of the more common reasons why Sonlight families love and continue to use our curriculum year after year.

# You have (or want to develop) a love of reading.

Sonlight's programs center around books. You'll read forty or so books in most Sonlight programs in a given school year. If your kids already love reading, this probably sounds like great news! But if your children don't like reading, be encouraged: for many families, the superb Sonlight books transform their reluctant readers into book lovers. Sonlight books are that good.

# 2 You don't want to be tied to a computer screen.

Sonlight parents are involved with almost all their children's schooling in the elementary and middle school years. We believe Sonlight books spur far too many topics for discussion to leave the teaching to someone online. You get to offer your thoughtful input every day.

In some subjects, you might choose to supplement with a screen-based teacher. In Math-U-See, for example, a video companion helps you teach the basics. In science, you might choose to use the Discover & Do videos for some science experiments, rather than do them all yourself.

Overall, screen time is limited and face-to-face time with your kids takes top priority. This is possible because the Instructor's Guide has done so much of the preparatory work for you, allowing you to focus on interaction with your kids. Sonlight programs require about two hours a day of a parent's time—less in the very early elementary years, a bit more in the middle elementary years, then fewer hours again in high school.

## Academics are important to you.

Sonlight is highly academic. We believe that parents have a responsibility to help their children acquire wisdom, knowledge, and a foundation for future service. A well-rounded liberal arts education in elementary, middle, and high school is valuable preparation for almost any posthigh school pursuit.

Sonlight graduates have gone on to college, trade schools, full-time missions, the military, and the work force. Sonlight parents share regularly that their children's professors report that they are the best writers, the best thinkers, the most well-read, and the best-informed students in the class. And students who transition to Sonlight after a several years in classroom school regularly see their test scores rise substantially. (See p. 114, the Sonlight scholarship page, for just a handful of gifted Sonlight students.)

And, you don't have to wait until high school for stellar academics! Many parents are surprised by how much they learn when teaching even their kindergarten students.

## You don't want the hassle of lesson planning.

Erika Evans wrote about her experience with lesson planning. "[Before Sonlight,] it took

me hours to collect ideas and organize materials. If one of the projects didn't work as planned, I felt I had wasted a ton of time and effort." But she hesitated to use a pre-planned curriculum because she feared "that it might sterilize our experience, that it might limit what we could learn and accomplish, that it might include too much busy work, that it would not allow for childled learning, that it was a lazy mom copout which would lessen the home school experience for me and my children."

What she found was that, with Sonlight, the reality was the exact opposite. "Having resources at the ready meant that we were always able to find interesting books to read and projects to do—right out of the box. There was always more material to cover and more ideas to discover. Not having to organize our entire day on my own meant that I was more available to the kids and actually had more time, not less, to help them explore their unique and individual interests. [Pre-planned] curriculum wasn't holding us back! It was giving us structure to zoom ahead in freedom!"

Having ready-to-go resources will make your homeschool days easier, provide increased freedom, and add to the amount of time you get to spend with your children. You may be surprised that structure gives you more freedom.

You want to try before you buy.

If you're able to attend a homeschool convention near where you live, you'll be able to see curriculum and get your questions answered by experienced Sonlight parents. See sonlight. com/conventions for locations and dates.

If you are unable to attend a convention, you can download the first three weeks of any Sonlight schedule to get an idea of what a day with Sonlight will look like.

Remember; Sonlight backs your satisfaction 100% with the Love to Learn, Love to Teach™ Guarantee. After your first 18 weeks with Sonlight, if you are unhappy with your History / Bible/ Literature or All-Subjects Package, simply return it for a complete refund.

If you want to speak with someone who knows the ins and outs of Sonlight, our Advisors are available. See sonlight.com/advisors for contact information.

### 6 You want to read impacting literature.

Sonlighters describe our books as poignant, heartwarming, powerful, deep, and thought-provoking. (Read Sarita's 7-point criteria for Sonlight books on p. 17) Excellent books offer a strong emotional connection with the characters. From an educational perspective, students remember much more of what they read when they have an emotional connection with the story and characters.

Depth of emotion also helps your children develop moral imagination. As your children begin to understand, through stories, how the world looks and feels to others, they develop the capacity to empathize with others and to understand how their actions affect the lives of others.

# You want to raise children ready to navigate the "real world".

Sonlight books are funny, touching, exciting, and interesting books that deal with real life in thoughtful, gentle ways. They are not meant to be shocking, aggressive, or inappropriate. And yet, they do deal with real life.

Some families with especially sensitive children find that there are certain books they set aside until the child is older. You're the parent, and you get the flexibility to control your child's education. However, most families find that Sonlight helps ease their children gently into stories that help them process the world around them: the beauty and joy, and yes, sometimes pain, that is involved. »

Lyla has been in love with chickens since the first time we read Eggs and Chicks. We had chickens for a year before she lost the last one, shares Kara Y of Clarks Summit, PA. "At Christmas, she was told she would hatch eggs in the spring. This has been a great learning experience for both children, and I love learning right alongside them! SONLIGHT PROVIDES THE EDUCATION I WOULD HAVE WANTED AS A CHILD." Pictured, Lyla (9, Level D) and Malachi (6, Level A) are watching chicks hatch.

#### You want a curriculum with room for flexibility.

Your Sonlight Instructor's Guide (IG) is merely a schedule, not a taskmaster. Many parents pick and choose among the suggested assignments. Even if they read most of the books, they might ignore some of the comprehension questions or skip some of the writing assignments.

Being homeschooled, Kadence is able to spend much more time with her siblings. She often chooses to do her schoolwork in the playroom so that she can play with her siblings in between math problems, or read aloud to them from her history or literature books. Sonlight helps her instill a love of learning into her younger siblings by letting them see how fun learning can be!"

Some people don't get to the timeline figures during the school year and spend a few hours during the last week of school putting a full year's worth of timeline figures onto their timelines all at once—a year-end review! Some parents allow their children to drop a few Readers a year, so their children only read fifteen or so books. Some will use the Discover & Do videos in lieu of science experiments in the early years. Or they will do the Read-Alouds at night, as bedtime stories. Or they will read some of the Read-Alouds during the summer to keep their children from getting bored.

Give yourself the freedom to make modifications. The IG is a guide, not a rule!

#### You want to learn at your own pace.

In the early grades, you can be assured that students in one school will have learned some things that their peers in another school have not. Different curricula follow their own scope & sequence. But notice the qualifier: in the early grades. Over time, the differences disappear. Because Sonlighters become such eager learners, you are likely to eventually tell a story like this one from Christy H of Galena, MO. She had sometimes wondered whether her children were learning enough: "When my kids randomly bring school into conversations with others—for example, when my 8-year-old discusses ancient Egypt and Rome with my cousin who is a history major in college, or when my 6-year-old explains to her fisherman grandpa why his boat floats...Then I know we are doing okay!" When you consider the wide range of books vour children will

read with Sonlight, it shouldn't be surprising when they readily and knowledgeably

engage with people on an astonishing variety of topics. With a Sonlight education, your children will not merely absorb basic information, but, far more, they'll develop an inquisitive spirit and love for learning. With Sonlight, you set the stage for your students to continue learning even after they have completed their formal education.

#### You want the Bible to be organically woven into learning.

Sonlight academics are based on and intentionally related to Scripture. We believe that Scripture is the Word of God and is effective for teaching, correcting, and instructing in righteousness. Each Sonlight HBL program includes Bible reading, Christian teaching, and memory verses. In levels G through high school, rigorous Bible study (including apologetics and Church history) is part of the Sonlight programs.

But not every page in the IGs has a Scripture quotation. When a passage of Scripture provides insight or understanding to a subject, the IG will often mention it. But in general, the Sonlight approach is to provide rich materials that help you engage in more natural, organic conversations about Scripture with your children.

When you read The Hundred Dresses in Sonlight A, for example, the story itself presents wonderful opportunities to discuss Biblical principles in real-life settings. Why should we care for others? What does kindness look like? How do we stand up for what is right? Instead of specific Bible lessons, Sonlight allows you to guide your own discussion as you pass your faith to vour children.

#### You want to encounter viewpoints different from your own.

Some of the books in both the Sonlight History and Science programs include an evolutionary/old-earth perspective. Usually, when a book has evolutionary content, the IG offers notes, so you can discuss a

The E. family, Sor

from Murrieta, C

Bible-based view on the beginning of the universe with your children. This is one of the ways Sonlight helps your children encounter complex issues in the safety of your own home – and from a strong, biblical perspective.

### You want to study cultures around the world.

Western culture—and American society in particular within the last 150 years—has enriched the world in many ways. With Sonlight, you'll learn about America's unique contributions during five thorough years of U.S. history and culture.

But Sonlight also devotes eight years to the rest of the world, including not only Western history and culture, but the cultures and histories of Asia, Africa, the Middle East, and indigenous peoples elsewhere around the world. With Sonlight, your children are prepared not only to think about, pray for, and serve Americans, but peoples and cultures around the world—wherever God may lead them.

Of course, from a secular perspective, we live in an increasingly globalized world. As international commerce increases, you may have practical reasons for your children to study the cultures and peoples beyond America's borders as well, offering them the knowledge and capacity to transcend national boundaries. See Sonlight's complete Scope and Sequence on pp. 128-129.

# You're ready to say goodbye to traditional testing.

From its foundation, Sonlight was designed to capitalize on the efficient, tutorial environment of the home. Because you're in daily, personal, one-on-one contact with your students, you'll be able to evaluate the progress of your students through means other than quizzes, tests, and graded worksheets.

When you're reading a book, you'll likely discuss it with your children: "Why do you think he wanted to do that?" "What does mean?" If your children are able

to answer your questions, you will know exactly how much they have understood. Such methods for gauging progress give you the feedback you need to be confident in your children's day-today progress.

But what if your children need to transfer to a classroom, or need to take the SAT or ACT in anticipation of attending college? These are good questions. Two possible answers:

- Some math programs, and all the Apologia Science programs, include tests. As you anticipate a transition, you can give your children practice with these kinds of tests.
- 2. Depending on where you live, your state may require annual or intermittent standardized testing. And whether required or not, you can have your children complete standardized tests on an occasional basis so you know if you are missing any key skills or subject matter. The standardized tests will give your children practice at test-taking, and may actually encourage you about how well you are doing!

# You want to incorporate hands-on activities into your studies.

Sonlight does include hands-on activities, but hands-on has never been our emphasis. We believe that the educational value of many activities often aren't worth the hours of preparation the parents must complete. So, more often than not, we encourage you to let your children decide for themselves what activities they want to do. A box, after all, may become their time machine, a cave, an airplane, or a house. With Sonlight, you'll find suggestions for hands-on activities in the Science Guides, along with Science experiments. Some books include suggestions of crafts. Many elementary students incorporate handson manipulatives with their math. And almost all of the elementary programs include hands-on activities, lap books or

notebooking pages, either as an integral part of the program or as optional add-on.

### 15 You're tired of worksheets.

"My son just does his work and can get on with his day!" Worksheets are so appealing, aren't they? How much easier to solve the basic math problem 6-4=2 than it is to solve a word problem. That's because, with word problems, you actually apply what you've learned to something more like the real world. And that usually takes more time and thought.

So, too, with education.

A Sonlight education deals with real-life, practical things that take time and effort to think and talk through. When, for example, you read the book of Luke with your children, they'll hear Jesus say some really unexpected things: the story of the man who commended the dishonest manager; the worker who hid his money and then gave it to the man who had multiplied »

his already. And it will take time to work through what Jesus means. That's not as easy as answering a catechism question, like "Who was Jesus?" with a memorized answer "God the Son." But it is meaninaful. Not easy, but worthwhile.

And for worksheet-loving children, they can enjoy Sonlight's Language Arts and Science worksheets, and additional worksheets for math, vocabulary, grammar, and handwriting. Even with a Sonlight education, you can still use plenty of worksheets, just not in history, Bible and literature, where the depth and breadth of the information requires more discussion and thought.

#### You're teaching multiple children.

Great literature appeals to a span of ages. At a certain point, the difference in maturity becomes too great and you might find you are not challenging your older students, while at the same time, the younger children are overwhelmed. But for children within about three years of age difference, Sonlight makes it possible to combine multiple children into the same program.

You can use one Sonlight History / Bible / Literature program and one Sonlight Science program for a range of children, with skill-based subjects (math, language arts, perhaps reading instruction) customized for each learning level. This allows you to keep Sonlight's broad focus, the great literature base, and the depth of discussions, while moving everyone forward at their appropriate levels. Read more about how to teach multiple students on pg. 32.

#### You want an interesting trip through history.

Many homeschoolers like the idea of teaching world history in a four-year cycle, repeated three times over the course of twelve years. It makes sense that history should be taught in chronological order, and that's why every Sonlight History / Bible / Literature package emphasizes

geography and incorporates timeline activities. This ensures that your students will understand the flow of history.

But rather than following a consistent fouryear cycle three times over, Sonlight breaks the pattern by including additional focus on certain places, eras, and types of history that a regular four-year cycle might skip. So, in addition to studying World History over a two-year period in both the early elementary and middle school years, with Sonlight, you'll study:

- a total of four focused years on American history;
- a one-year intensive course on the history of the Christian church;
- 20th century world history an important century for understanding the world today;
- a year spent on the Eastern Hemisphere, learning about the cultures and practices of the majority of people on earth;
- a year covering a set of common prerequisites for college: studies in civil government and economics.

Do these breaks in the chronological study confuse children? Not at all. We've found that just like a properly filled in back-story only helps the narrative, so too, your students' understanding is enhanced when you see and talk about parallels and contrasts with peoples, cultures, and events of other times and other places. There are true, compelling reasons to take time to focus on additional studies

The literature-based learning approach that Sonlight provides adds a richness and connection we have not felt with any other program. My kids beg for the books and groan when we have to end. Using Level F this year, we have a better understanding of these cultures and have been able to explore different beliefs, while also becoming more familiar with our own. In addition, my kids have mastered the locations of over 100 countries. When you connect the places to the literatures and what they are learning, geography becomes a joy. Thank you Sonlight for another beautiful year!" Christina E of Colfax, NC.

I love that Sonlight is truly a family thing for us. My kids bond over characters and stories. They read together all the time. They all love to read, even the ones still learning how, and I think the amazing literature Sonlight provides is a big part of it," claims Courtney H of Defiance, OH." We are so thankful for the love of learning Sonlight is fostering in our family!"

I was unsure where to begin, what curriculum to use, or what my next steps should be. After hours of research, I selected Sonlight because the books looked engaging and exciting. To say that my girls and I have loved the Sonlight journey would be an understatement. I wasn't sure how well Sonlight would prepare my kids academically, but after an end-of-the-year assessment, the results showed my daughter to be ahead of academic benchmarks." ### WHAT'S NEW FOR 2021

#### **2021 UPDATES:**

- New Books As sometimes happens, titles go out of print or we replace a book in a level. History / Bible / Literature levels K, A, B, and D have new books. Level 320 received an overall refresh with a brand new spine and multiple new titles. Update your program with the new books. You can also update your IG to match for 50% off. sonlight.com/repurchase
- An Updated Timeline Book A long-time staple of our History / Bible / Literature program, The Timeline Book receives an exciting facelift this year, sonlight.com/ timeline-book
- Updated Scope & Sequence With the addition of our new science programs, the Science Scope & Sequence has changed. Visit sonlight.com/scope-sequence

Best Box Day Ever!" exclaims Ann K of Reno, TX. "Our typical box day consists of William (16) getting a new level and Caroline (13) getting updates to what we already have. This year was different. We got two brand new levels- J and 300! We had an especially memorable time at the end of this school year while my father lived with us for two months during the guarantine. We had lively discussions about scientific theories from HBL J and had great insights and remembrances stemming from the 20th Century World History readings."

#### **WHAT'S NEW 2021:**

- New Science Programs Levels A-C Several of Sonlight's popular hands-on Science programs are completely new and redesigned to adhere to the Next Generation Science Standards (NGSS). Our classic model of learning by reading, discussing, and doing is combined with research-based science standards. In addition, each level becomes more interconnected as brand new hands-on experiments now tie directly to the rest of the content. Learn more at sonlight.com/science
- New Preschool Program Embark on an exciting adventure of learning in our brand new preschool program! ## **SCOPE & SEQUENCE**

#### A strategic map from preschool through high school

Sonlight gives you the tools you need to academically prepare your children for excellence in high school and beyond. You'll help equip them for college, trade school, the military, the workforce, or family life.

From preschool through high school, your Sonlight journey offers three sweeps through history and a solid foundation of Biblical knowledge. In language arts, watch your children progress from learning to read and write, to composing well-crafted research papers and creative works. Study science from an initial introduction to college-level lab work. Take a look at the road ahead!

Visit sonlight.com/scope-sequence to download a printable chart of what you'll be learning year by year from preschool through high school in Sonlight's History / Bible / Literature, Language Arts and Science programs. On that same page you can download a detailed Scope and Sequence for individual levels. You will also find the Scope and Sequence for the Math programs that we offer. 🗱
