Airline Pilot

Design Your Pilot Badge

Did you know airline pilots receive special wings when they finish their training? These badges are worn on their uniforms and show that they're qualified to fly airplanes! Pilot wings are a symbol of skill, responsibility, and adventure—and many airlines even give kids junior wings when they fly! Draw your official pilot wings and add your pilot name, airline name and a fun logo or symbol.

Plan Your Flight Path

Pick anywhere in the world to "fly" your passengers to and draw a simple map from your starting city to your destination. You can add fun details like clouds (a storm), mountains, or oceans.
