

Design & Sculpt!

Design Your Dream Sand Sculpture.

Use the space below to plan and draw your kinetic sand sculpture.

My sculpture is called _____

What inspired your idea?

I chose this because _____ .

Optional – Make Your Own Kinetic Sand

If you have time and a grown-up to help, try one of these fun recipes to make your own kinetic sand.

Option 1:

Mix 2.5 cups regular sand with 1.5–2 cups cornstarch, then stir in $\frac{1}{2}$ cup olive oil until blended.

Option 2:

Mix 2 cups flour with $\frac{1}{4}$ cup oil (vegetable, coconut or baby oil).
To make colorful sand, add oil-based food coloring to the oil before mixing.

Try creating your dream sculpture or anything else you like.
