

# Milk Paint Popcorn Rainbow Craft

## What You'll Need:

- Popped popcorn (plain, unsalted)
- Milk
- Food coloring (red, orange, yellow, green, blue, purple)
- Small cups or bowls for paint
- Paintbrushes or spoons
- Paper plate or included rainbow template
- Glue

## Instructions for Kids:

### 1. Make your milk paint!

In small bowls, mix a little bit of milk with a few drops of food coloring — one bowl for each rainbow color.

### 2. Paint the popcorn.

Dip your popcorn in the milk paint or use a brush to gently color it. Let it dry a bit on a paper towel.

### 3. Create your rainbow!

Draw a rainbow shape or outline on a paper plate—or use the rainbow template provided. Then glue the colorful popcorn in rows to bring your rainbow to life!

### 4. Add extras if you want!

You can glue on cotton balls for clouds or draw a sun and raindrops.

## Tip for Grown-Ups:

Let the painted popcorn dry a bit before gluing to avoid soggy paper.
