

Catch of the Day!

What You Need:

- Printable fish cutouts
- Fishing rods: craft stick or wooden dowel, string, and a magnet
- A "pond" mat or a blue paper/tub to represent water
- Paperclips (to attach to fish for magnetic play)
- Scissors

Instructions:

1. Cut your fish!

Cut out the fish from the provided pages.

2. Attach paperclips.

Place a paperclip on the mouth of each fish to help catch it with a magnet.

3. Make your fishing pole!

Cut a piece of string and tie one side to the end of the craft stick. Tie the other end of the string to a magnet (as your fish hook).

Let kids "go fishing" for fun—whoever catches the most fish wins!
